Skills

Mathematics
C
C++
Python
Java
Kotlin
Machine Learning
Deep Learning
NLP
Ethical Hacking
Android Development

Education

National Institute of Technology (NIT) Srinagar
2019 - Present
B.Tech-Electronics and Communication

Experience

Indian Institute of Technology, Indore-Research Intern
2022 - Present
Working on Space Weather Prediction using ML/AI.

1stopai-Artificial Intelligence Intern
2021 - Present
Working on projects of Handwritten Digit Classification Natural Language Processing.

Verzeo Info Tech-Machine Learning Intern
2021 - 2021
Learned basic regression and classification techniques in ML.

Project

Age calculating App
A Basic age calculating app that gives age as output when the DOB is entered.

Hand Written Digit Classification
An SVM based Machine Learning Model that predicts Handwritten Digits

Twitter News Bot
A Twitter Bot that Auto Retweets likes replies based on the trending tweets working as News Feed Bot.

Achievements

Received a LOR during the 30-Day Workshop on Artificial Intelligence conducted by MyCaptain.
Secured 4th position in Inter NIT-IIT IQ quiz conducted by Unacademy.
Runner-Up in IEEE Brainly Event.
